 black shiny	021-0087	4009729048405

Maximum number of sheets of 80 g/m² paper. The maximum capacity in this case is 20 sheets.

Tool with metal functional parts

This device can process staples of type No. 10. A maximum of 100 staples can be inserted.

Maximum stapling depth is 37 mm.

With the top-loading mechanism, the staples are inserted into the stapler after raising the top part.

With staple legs resting flat against the paper, flat-clinch stapling cuts filing space by as much as 30 %. The minimum amount of space taken up by staple ends optimises binder capacity.

Novus offers a warranty of 10 years when handled in a proper manner

The quality statement „German Engineering“ ensures that a product was developed according to German quality standards by our engineering experts. All Novus products carrying the „German Engineering by Novus“ signet are manufactured in our own plants around the world by our own workforce, managed and supervised by our headquarters in Germany.

This machine bears the GS approval of product safety.

Flat-clinch stapling plier NOVUS B 36FC

With stapling legs resting flat against the paper, flat-clinch stapling cuts filling space by as much as 30 %.

With stapling legs resting flat against the paper, flat-clinch stapling cuts filling space by as much as 30 %.

With the new two-stage stapling action, the staple legs pierce the paper first. The staple ends are then bent over and pressed absolutely flat against the paper.
