Maximum number of sheets of 80 g/m² paper. The maximum capacity in this case is 30 sheets.

The stapler's key components are made of solid metal.

Robust stapling for permanently binding documents together.

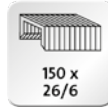

Temporary stapling makes it easy to keep papers together for short periods. The advantage: staples can be removed quickly and easily.

For quick fastening: nailing.

This device can process staples of type 24/6 SUPER. A maximum of 100 staples can be inserted.

This device can process staples of type 26/6 SUPER. A maximum of 150 staples can be inserted.

Maximum stapling depth is 53 mm.

With the top-loading mechanism, the staples are inserted into the stapler after raising the top part.

Novus offers a warranty of 10 years when handled in a proper manner

The quality statement „German Engineering“ ensures that a product was developed according to German quality standards by our engineering experts. All Novus products carrying the „German Engineering by Novus“ signet are manufactured in our own plants around the world by our own workforce, managed and supervised by our headquarters in Germany.

This machine bears the GS approval of product safety.

Desktop stapler NOVUS E 30

The staple can be removed quickly and easily thanks pinning.

The non-slip base ensures firm standing.

The moveable anvil also permits permanent and temporary stapling. Temporary stapling is ideal for short-term fastening. Advantage: easy, fast removal of staples.

The integrated staple remover takes the effort out of removing staples, making these staplers talented allrounders.

Desktop stapler NOVUS E 30

The third method of Novus desktop staplers: nailing. With this method, the staple ends are not bent over but sunk vertically into the stapled object.
